- P. 12 PROTECTION
- P. 14 MULTIMEDIA

Citroën offers an extensive range of sturdy and convenient accessories to suit your needs on board the Citroën C3 Aircross SUV. Combining aesthetics with quality, our accessories are approved by our engineers to meet very strict specifications in terms of compatibility, performance and safety. They are easy to fit and handle, however, should you require further assistance or advice on fitting you can contact your local Citroën dealer who will be happy to help.

**ORIGINAL  
PARTS**

# COMFORT

The attractive and handy blinds of the Citroën C3 Aircross SUV fully cover the windows and rear window. They block the sun's strong rays without obstructing visibility.

1

With this easy-to-handle baby seat and its 3 ISOFIX-approved anchor points, you can transport your children in total safety in the back seat.

2

3

Available in different fragrances, the air freshener integrated into the ventilation system diffuses a pleasant and relaxing atmosphere into the interior of the Citroën C3 Aircross SUV.

4

Handy for carrying clothes you don't want to crease, this discreet, designer hanger can be attached behind the front headrests.

5

Elegant, Citroën-designed front air deflectors guarantee a renewed and controlled air flow. They help maintain the aerodynamics of the vehicle when opening windows while driving.

Dedicated to on-board well-being, Comfort accessories are beneficial to all vehicle occupants, young and old (including pets). If necessary, you can visit your local Citroën dealer for further advice or fitting.

1. Side & rear window blinds
2. Baby seat
3. Air freshener
4. Headrest hanger
5. Wind deflectors

# COMFORT AND SAFETY

1. Parking assist
2. Extinguisher
3. Dog guard
4. High load retaining net
5. Ranges of snow chains and anti-slip covers

Parking Assist helps you when manoeuvring into or out of a parking space and gives an audible warning when an obstacle is close by. Its discreet sensors are perfectly integrated into the design of the bumpers of the Citroën C3 Aircross SUV and are approved by our engineers for their electronic compatibility with your vehicle.

1

This approved multi-purpose powder extinguisher complies with the 3 most important fire classes. Placed on board, it will be a great help should an incident occur.

2

A dog guard is recommended for the safety of your pet during a journey, as well as for your own safety. Pre-assembled, it is quick and easy to fit.

3

The high load retaining net secures objects occupying the rear space of the Citroën C3 Aircross SUV. It prevents them from moving forwards in the event of sudden braking, making the passenger compartment safer.

4

5

Citroën's snow chains and anti-slip covers take up little space and are easy to fit on the wheels. They ensure perfect road handling and superb traction when driving on snow or ice.

# TRANSPORT

1

Feel like going further afield for a bike ride? Nothing could be simpler with the Citroën-approved bike carrier, which is fitted with an anti-theft system. It can be attached to the roof bars in just a few minutes with each bicycle being secured independently..

1. Roof-mounted bicycle rack
2. Ski and snowboard rack
3. Medium-length roof box
4. Roof cross bars

2

Made of robust, waterproof material (with watertight seams), this roof box is shock and weather resistant. The EASY SNAP system makes it quick and easy to fit without the need for tools. After use, simply fold it up and store it in its cover.

Citroën's transport accessories make it easy to load all kinds of objects, whether they are placed inside the cabin or stowed outside your Citroën C3 Aircross SUV. And of course, always in optimum safety conditions.

3

Citroën's roof boxes are solid and quick to fix, so you can carry your bags, suitcases or other objects in complete safety while freeing up space inside the Citroën C3 Aircross SUV.

4

The versatile cross bars allow you to install various roof rack systems on the roof of your Citroën C3 Aircross SUV. They protect the bodywork from scratches and scrapes. They are City Crash Test approved and certified by our engineers for your safety.

To make the transport of all kinds of products more secure, opt for the rigid, water-resistant and non-slip boot tray. It can be fitted without fasteners and protects the rear area very effectively against impacts and dirt. Its size, colour and finish have been specially designed to fit seamlessly into the Citroën C3 Aircross SUV.

1

The Citroën tool-less detachable hitch, produced, tested and compliant with European regulations and our specifications, is quick to install. It does not interfere with the rear parking assist system and blends in with the design of the Citroën C3 Aircross SUV. It is approved by our engineers to guarantee your safety.

2

3

This custom-made resistant mat is very useful to preserve the boot lining, if you often carry objects in the back of your Citroën C3 Aircross SUV.

1. Rigid boot tray
2. Citroën Tool-less Detachable hitch
3. Boot mat
4. Hitch-mounted bicycle rack

# TRANSPORT

4

The trailer-mounted bike carrier minimises fuel consumption by reducing the wind resistance compared to a roof-mounted load. It fits on most frames and is cleverly folded flat.

# PROTECTION

- 1. Parking cover
- 2. Set of needle-pile mats
- 3. Set of shaped mats
- 4. Set of velvet mats
- 5. Rear seat cover
- 6. Set of mud flaps

To prolong the longevity of your Citroën C3 Aircross SUV, we have created a range of interior and exterior protection accessories whose style blends perfectly with the vehicle. Approved by our engineers for their solidity and durability, they protect the most exposed surfaces against damage and wear and tear over time.

This high quality custom-made cover made of breathable fabric will protect the bodywork of your Citroën C3 Aircross SUV from dust and dirt.

These sturdy carpets prevent wear and tear on the floor of the Citroën C3 Aircross SUV. The driver's mat is fitted with a heel pad for extra durability.

This set of strong custom-made carpets fit the shape of the floor of Citroën C3 Aircross SUV for optimum protection. They can withstand intensive use and can be cleaned with a sponge or Hoover.

The elegant velvet mats with their nubuck type backing add a touch of comfort and style to the interior of the Citroën C3 Aircross SUV.

Preserve the look and upholstery of your rear seat, and transport all kinds of passengers with peace of mind! Perfectly suited for pets, it is easy to put on and take off, can be washed at 30° and can be stored without taking up space.

The lower body of the Citroën C3 Aircross SUV will be protected by this set of mud flaps that combine efficiency and aesthetics. Made to measure and easy to install, they avoid splashes of water, mud or other splashes. An optimised fixing system ensures that they are securely attached.

Park with peace of mind. The intruder alarm on the original remote control ensures volumetric and perimeter protection of the doors, boot and bonnet. Automatically activated when the doors are locked, it will react to any attempt to open the Citroën C3 Aircross SUV.

1

They're so practical! From the magnetic smartphone holder to the nomadic LED lamp, multimedia accessories make life on board the Citroën C3 Aircross SUV easier and more convenient. These ergonomic and highly technical objects selected by our engineers offer guaranteed compatibility with your vehicle's wiring.

1. Intruder alarm
2. Smartphone holder
3. Tetrax Xway
4. LED lamp

# MULTIMEDIA

The universal holder equipped with NFC technology allows you to launch your favourite applications directly on your smartphone. Attached to the windscreen or dashboard by suction cup or adhesive, it can be rotated 360°. Its high-quality finish (rubber touch, aluminium insert) is perfectly suited to the Citroën C3 Aircross SUV.

2

The very practical magnetic holder can be placed on the air vents or the dashboard. It securely holds devices weighing up to 400g (GPS, mini-tablet etc.).

3

The Citroën LED nomadic lamp, with its 30cm flexible multidirectional arm and anti-glare beam, means that the front passenger can use it without disturbing the driver. It is useful for reading as well as searching for something.
