CITROËN C5 X

# PLUG-IN HYBRID

Suitable for all uses, C5 X Hybrid combines all the advantages of 100% electric driving for daily trips, thanks to its 81.2 kW engine, with the range provided by its PureTech 180 Stop & Start Euro thermal engine. 6.3 to travel further. A technology that can display CO2 emissions from 29 g / km (in WLTP cycle). The electrified automatic gearbox e-EAT8 ensures remarkable fluidity and driveability, with the immediate availability of torque of 360 Nm. C5 X Hybrid also features Brake mode, a system that recovers energy for the battery during braking and deceleration phases. The selector positioned on the central console allows you to choose your driving mode: Electric, Hybrid, Comfort or Sport. Note that the control of the Citroën Advanced Comfort® Active Suspension adapts in every driving mode.

#### IN ELECTRIC MODE

*C5 X Hybrid has a range of up to 55 km \*, suitable for most users daily journeys.*

#### IN HYBRID MODE

*Management between the engine and electric motor is done automatically, for optimum efficiency.*

#### IN COMFORT MODE

*Based on Hybrid mode, Comfort driving mode offers additional flexibility thanks to Citroën Advanced Comfort® Active Suspension.*

#### IN SPORT MODE

*C5 X Hybrid offers dynamic performance thanks to the electric motor supporting the engine, for a cumulative power of 225 hp. Citroën Advanced Comfort® Active Suspension, then becomes firmer for better handling.*

\* The range may vary depending on the actual conditions of use.

# PETROL ENGINES

C5 X is equipped with high-performance petrol engines, efficient, economical and compliant with Euro 6.3. Available are turbocharged PureTech 130 S&S and PureTech 180 S&S engines. For even more fluidity and serenity behind the wheel, C5 X also accommodates an EAT8 8-speed automatic gearbox.

# STYLE

---

## SHARP AND DYNAMIC

New Citroën C5 X features a bold V-shaped LED light signature consisting of two distinctive sections. The first upper set flows out from the central chevrons and towards the edge of the bonnet, while the second lower set bleeds into the LED headlights, emphasising the width of C5 X.

The same bold lighting design features at the rear with matching geometric lines, which also feature on the rear quarter glass, and a V-shaped LED signature which is on both in the day and at night. Generously curved sections, sharp lines, chevron detailing and chrome elements further reinforce the width of C5 X.

A rear three-quarter view of a dark-colored Citroën C5 X parked on a paved road. The car is positioned on the right side of the frame, with its rear wheel and taillight visible. The background features a vast landscape with rolling hills, a small town in the valley, and distant mountains under a hazy, blue-tinted sky. The overall mood is serene and scenic.

# AN AVANT-GARDE BODY STYLE

---

In a class of its own, New Citroën C5 X achieves the perfect mix of a traditional large saloon with its long and imposing bonnet, a practical estate with its large boot and the raised posture of an SUV thanks to its large-diameter wheels.

# AERODYNAMIC AND FLUID LINES

New Citroën C5 X immediately arouses interest thanks to its aeronautic inspired body shape which is at once modern, generous and powerful. Its long roof line ends with a floating, aerodynamic upper spoiler. A second spoiler, in gloss black, offers support and braking stability. To further accentuate its distinctive character, C5 X is also offered with the option of a bi-tone black roof.

# INTERIOR LOUNGE SPACE

Designed in a lounge spirit, the interior of C5 X expresses technology and space on board thanks to generous volumes and taut lines. Refined surfaces and the care taken to the smallest details create a feeling of well-being. Many rooms, treated as floating elements thanks to indirect lighting, bring lightness and elegance.

Particular attention has also been paid to the ergonomics of the cockpit, with controls placed in the right place, a large 12" HD \* touch screen and digital equipment to keep your eyes on the road at all times.

Finally, numerous storage spaces cleverly distributed to put down, store or hide all everyday objects, contribute to the comfort of all passengers on board the C5 X.

*\* Dependent on version.*

A man with a beard is shown in profile, looking out of a car window. The background is a soft, warm sunset or sunrise. The text '3 INTERIOR AMBIENCES' is overlaid on the left side of the image.

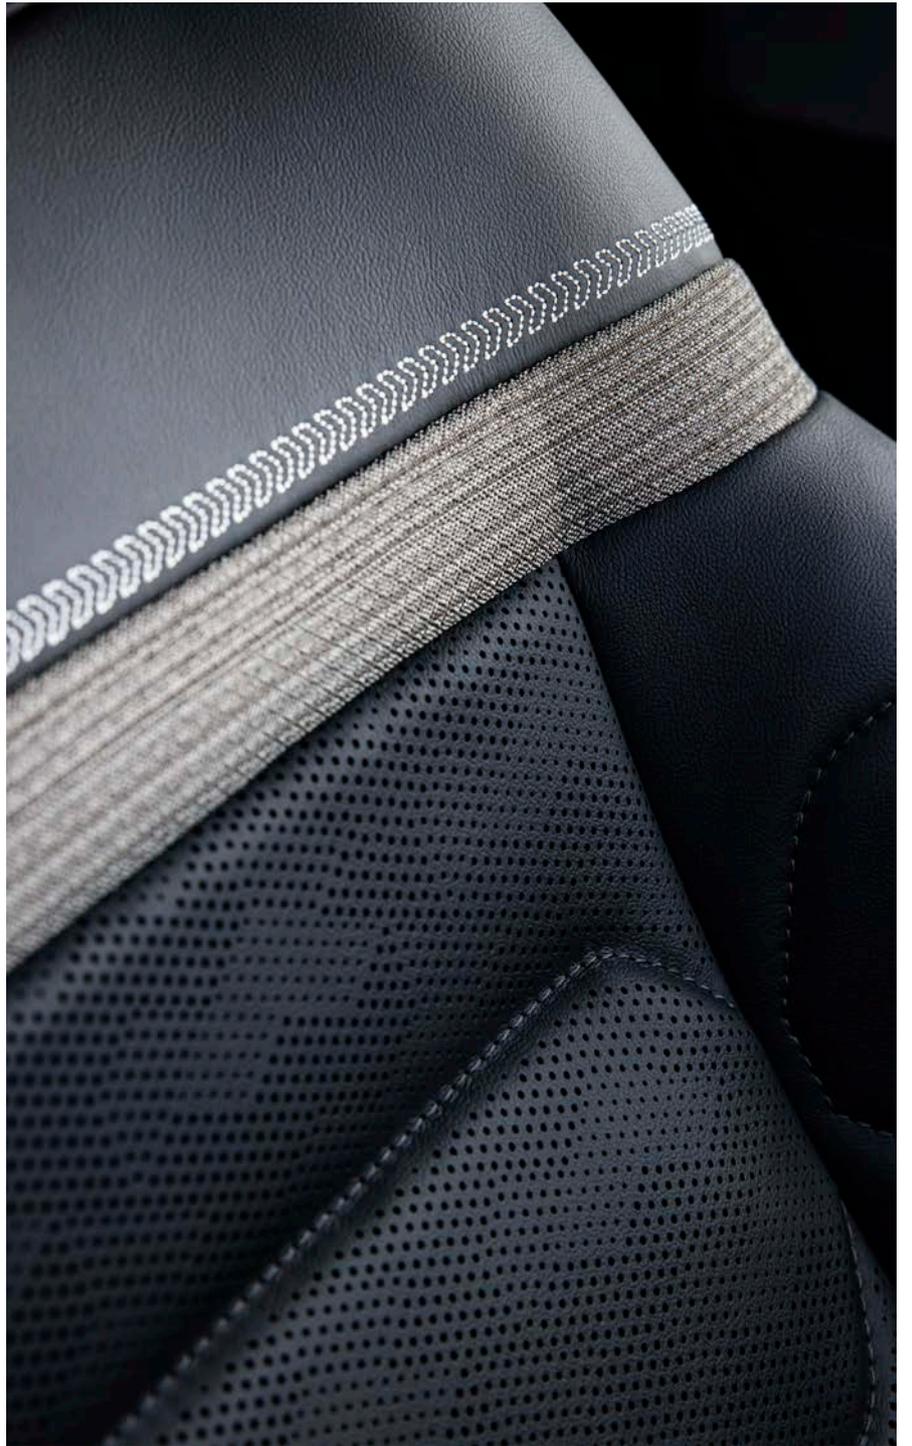

# 3 INTERIOR AMBIENCES

There are three interior ambiences to choose from when it comes to C5 X, each featuring warm and soft materials combined with touches of satin chrome and gloss black.

**Urban Grey** ambience features seats with a quilted grey herringbone fabric, Isabella black leather-effect and is finished off with subtle grey graphic pattern on the seatback.

**Metropolitan Grey** ambience exudes refinement with seats featuring padded black Paloma leather, Isabella black and Nixon grey leather-effect and a grey seatback strip with a graphic pattern over-stitching.

**Hype Black** ambience offers a distinctive padded Mistral black Paloma grained leather with a perforated chevron inspired design. A grey strip breaks up the look and includes a graphic pattern over-stitch. The dashboard and door trim decor feature a wood-effect design with a matching overlaid pattern, enhancing a feeling of warmth and well-being.

# WELL- BEING

## FOR THE ULTIMATE COMFORT EXPERIENCE

Citroën has developed a complete program intended to provide unprecedented ultimate comfort to the driver and his passengers. Named CITROËN ADVANCED COMFORT®, this program consists of providing innovative, technological and intelligent solutions at the service of well-being. All user expectations are thus taken into account, confirming Citroën's legitimacy in terms of automotive comfort. Four major themes dictate this engineering of well-being: the cocoon effect, practicality, fluidity and serenity.

# CITROËN ADVANCED COMFORT® ACTIVE SUSPENSION

Exclusive to Citroën, which recreates the silent and dynamic flying carpet effect of iconic Citroëns, the Citroën Advanced Comfort® Suspension is fitted as standard to the C5 X in the petrol version. This innovation makes it possible to overcome all obstacles, Potholes, gullies, speed bumps and other road connections, in complete peace and relaxation. The objective of this suspension technology is to improve the quality of filtering, typically Citroën.

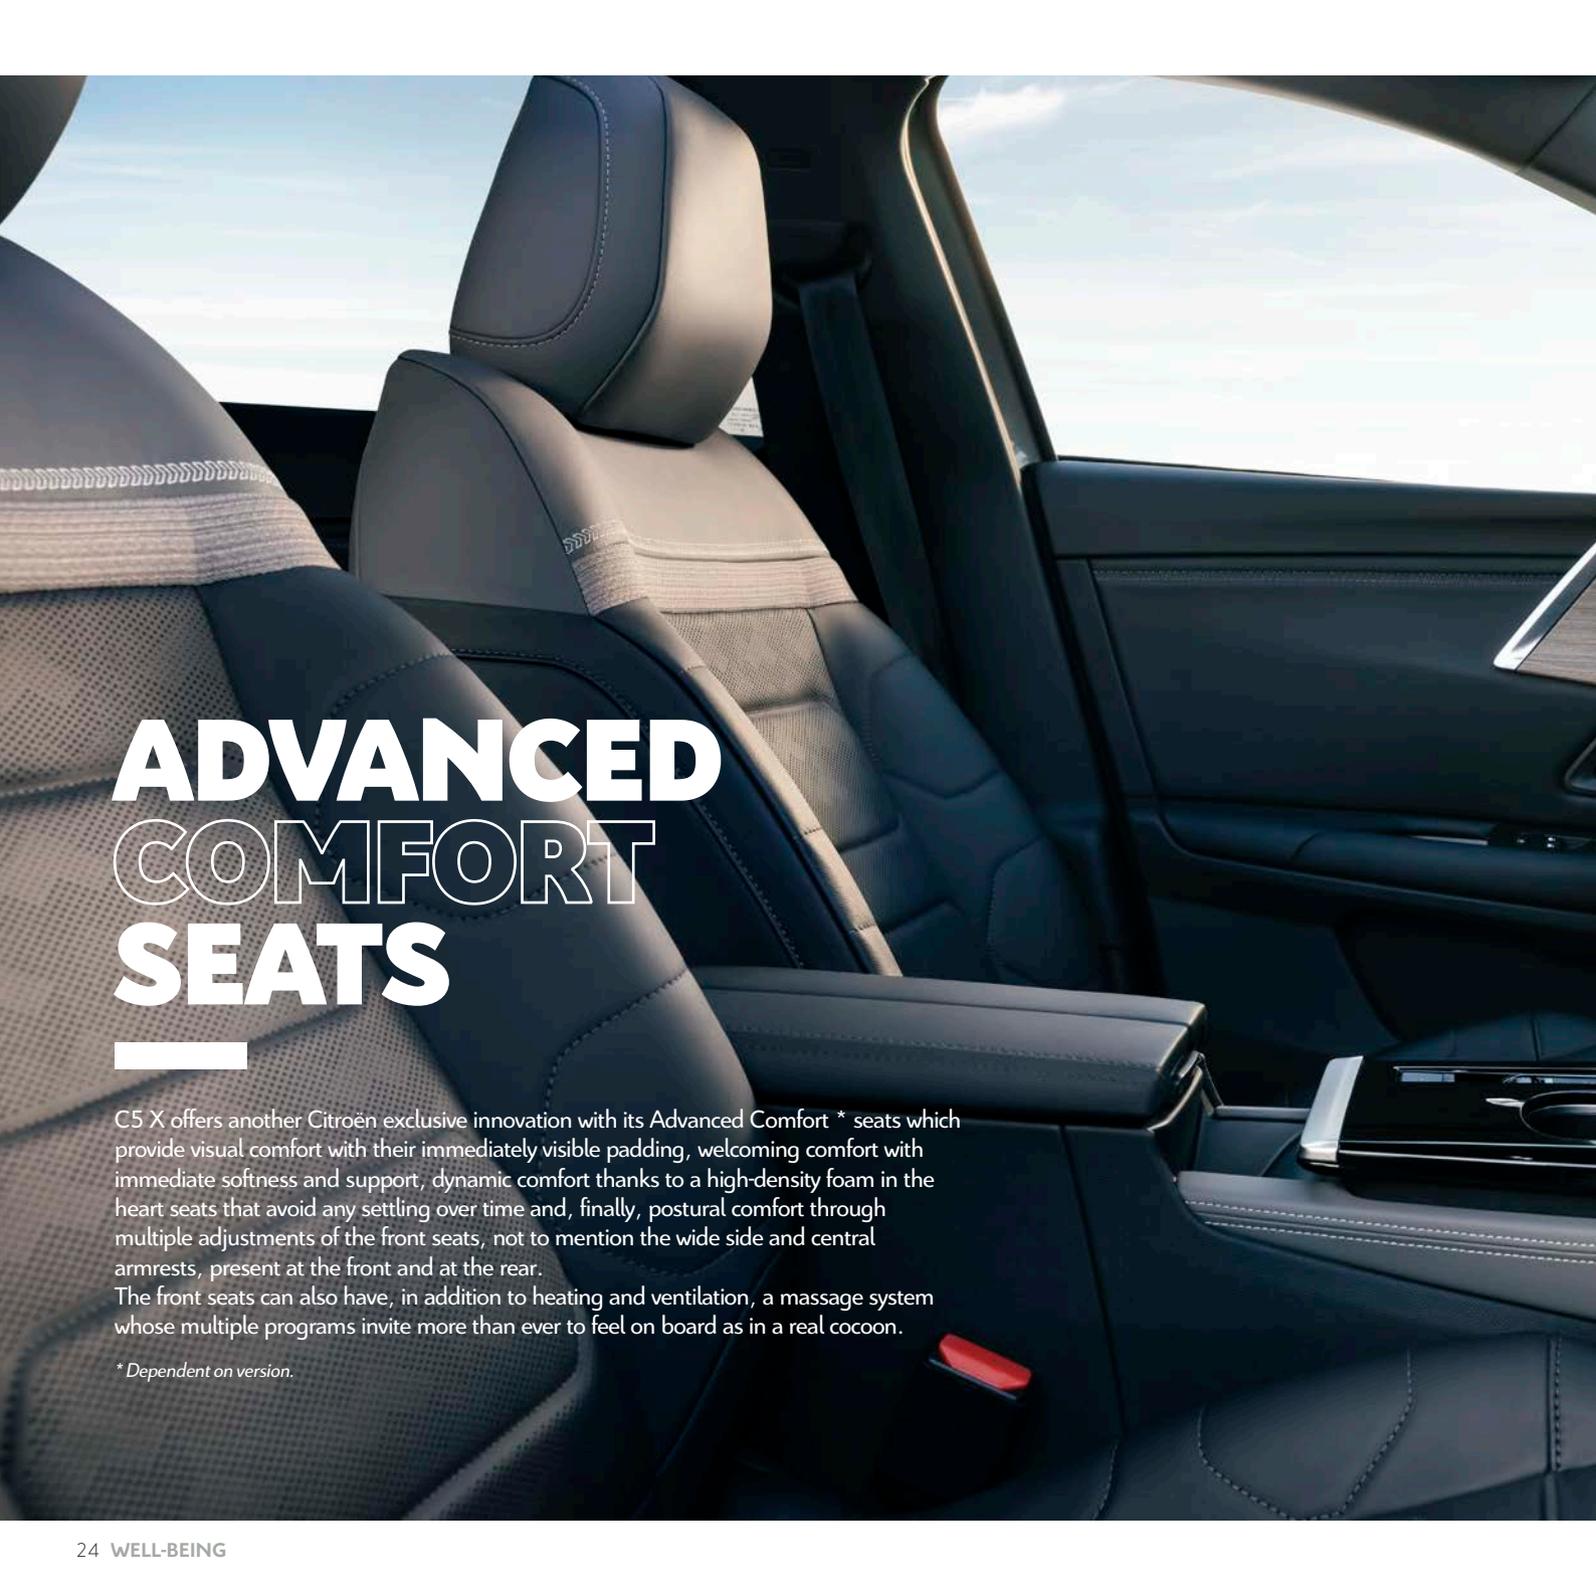

**The plug-in hybrid version of the C5 X further improves comfort by offering, as a world first, the Citroën Advanced Comfort® Active Suspension. This combines the Progressive Hydraulic Cushions with active control of the suspension.**

**The car adapts the suspension of each wheel, which is more flexible or firmer depending on the situation encountered. Various sensors deciphering the road and its irregularities transmit the information to a computer which determines the correct settings at any time to offer maximum comfort to all occupants.**

In addition to the ESP sensors, the controlled suspension has vertical position and wheel speed sensors to analyze body movements and driving rhythm. The handling of the suspension provides both perfect comfort when flying over the road in the straights and a high level of handling in the bends.

ON

The image shows the front interior of a Citroën C5 X. The focus is on the driver's and front passenger's seats, which are upholstered in a dark blue leather with a perforated mesh section on the lower backrest. The seats feature prominent horizontal padding across the backrest and seat cushion. The center console is visible between the seats, and the passenger-side door panel is partially seen on the right. The background shows a bright, overcast sky through the car's windows.

# ADVANCED COMFORT SEATS

---

C5 X offers another Citroën exclusive innovation with its Advanced Comfort \* seats which provide visual comfort with their immediately visible padding, welcoming comfort with immediate softness and support, dynamic comfort thanks to a high-density foam in the heart seats that avoid any settling over time and, finally, postural comfort through multiple adjustments of the front seats, not to mention the wide side and central armrests, present at the front and at the rear.

The front seats can also have, in addition to heating and ventilation, a massage system whose multiple programs invite more than ever to feel on board as in a real cocoon.

*\* Dependent on version.*

# DRIVING PLEASURE IN E-COMFORT

No noise, no vibration, sound insulation from the road and the outside world, particularly thanks to laminated front and rear windows: aboard the C5 X in a plug-in hybrid version, the driving experience reaches a level of comfort and silence ultimate. The two engines join forces to provide a smooth movement of the car. The fast and efficient e-EAT8 electrified automatic transmission enhances drivability with immediately available torque. Stress is totally absent, absolute serenity.

# COMFORT IN THE BACK

The 3 rear seats invite rest and relaxation, with exceptional legroom, pleasant width, comfort and generous headroom. A real invitation to comfort and serenity.

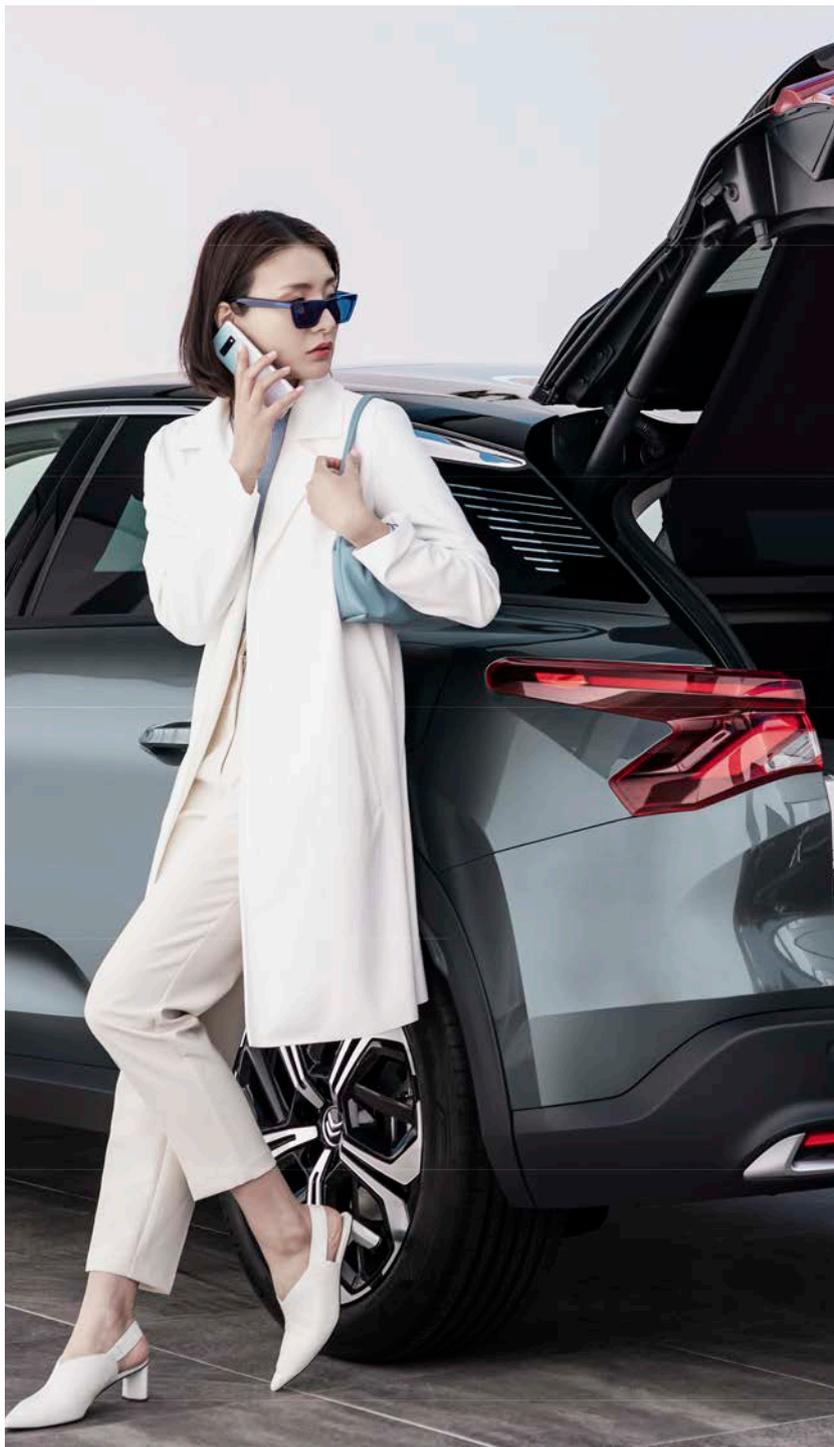

# PANORAMIC SUNROOF\*

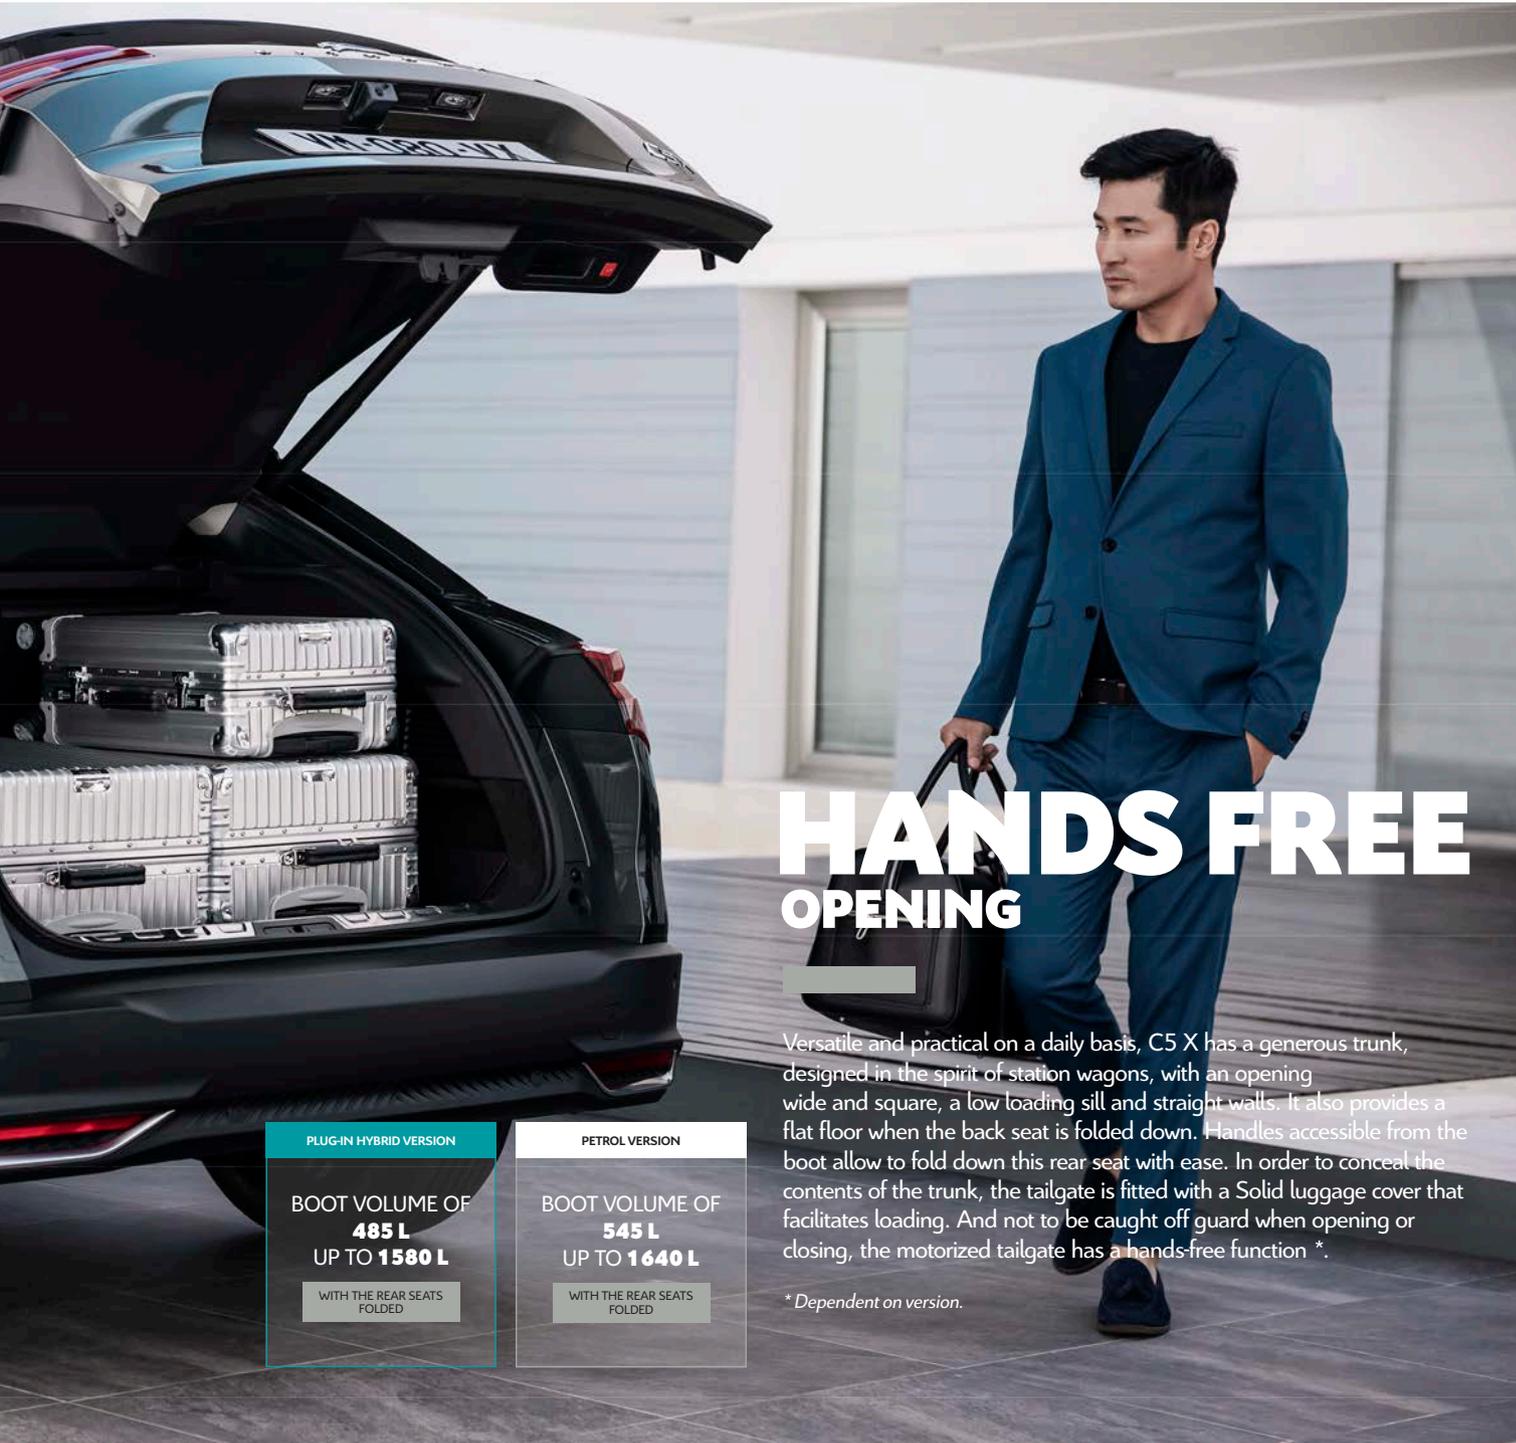

Comfort on board Citroën C5 X is enhanced by exceptional visibility thanks to glass surfaces 360° around the car, including the rear quarter windows. Front and rear passengers also benefit from the light offered by the large power glass sunroof\*.

*\* Optional extra..*

# HANDS FREE OPENING

Versatile and practical on a daily basis, C5 X has a generous trunk, designed in the spirit of station wagons, with an opening wide and square, a low loading sill and straight walls. It also provides a flat floor when the back seat is folded down. Handles accessible from the boot allow to fold down this rear seat with ease. In order to conceal the contents of the trunk, the tailgate is fitted with a Solid luggage cover that facilitates loading. And not to be caught off guard when opening or closing, the motorized tailgate has a hands-free function\*.

\* *Dependent on version.*

#### PLUG-IN HYBRID VERSION

# SERENITY

---

C5 X is equipped with advanced technologies to make every trip comfortable, serene and secure.

The image shows the interior of a Citroën C5 X. The central focus is a large, vertical tablet mounted in the dashboard area. The steering wheel is on the right side of the frame, featuring the Citroën logo and various control buttons. The car's interior is dark-colored with a textured dashboard. Through the windows, a scenic view of mountains and a valley is visible under a clear sky.

# MY CITROËN DRIVE PLUS

C5 X inaugurates a brand new intuitive communication interface and connected equipped with a 12 "HD \* touch screen, 4 USB type C \* sockets and wireless induction charging \* for smartphones. Intuitive and easy to use, this new 12 "HD tablet allows you to fully customize your screens thanks to a system of widgets.

Your favorite apps and content are automatically displayed on the handset and on this tablet. At any time, you can edit each content according to your needs. This intelligent system also has natural voice recognition, a real personal assistant that understands what you say, answers your questions and carries out your commands.

To activate My Citroën Drive Plus by voice, all you have to do is say "Hello Citroën". You have access, for example, to the weather forecast, navigation, to music, air conditioning or your phone.

*\* Dependent on version.*

# STAY CONNECTED

## MY CITROËN PLAY PLUS

This service, compatible with Apple CarPlay™ and Android Auto, offers extensive wireless connectivity on board, simply by connecting your smartphone to get directions, call, send messages and listen to music in complete safety, without leaving the road. eyes. All your applications are displayed directly on the central screen.

## MY CITROËN ASSIST

This geolocated emergency calls and assistance service, free of charge, without subscription and available 24 hours a day, 7 days a week, ensures that the appropriate assistance is sent, either automatically or by pressing the emergency button. or assistance.

## MY CITROËN APP

Thanks to the My Citroën application installed on your smartphone, you can remotely control certain functions of your C5 X. It is in particular possible to locate it, to lock and unlock it remotely. In a plug-in hybrid version, it also allows you to program recharging and thermal preconditioning for an ideally tempered interior when you leave, or to consult the electric range.

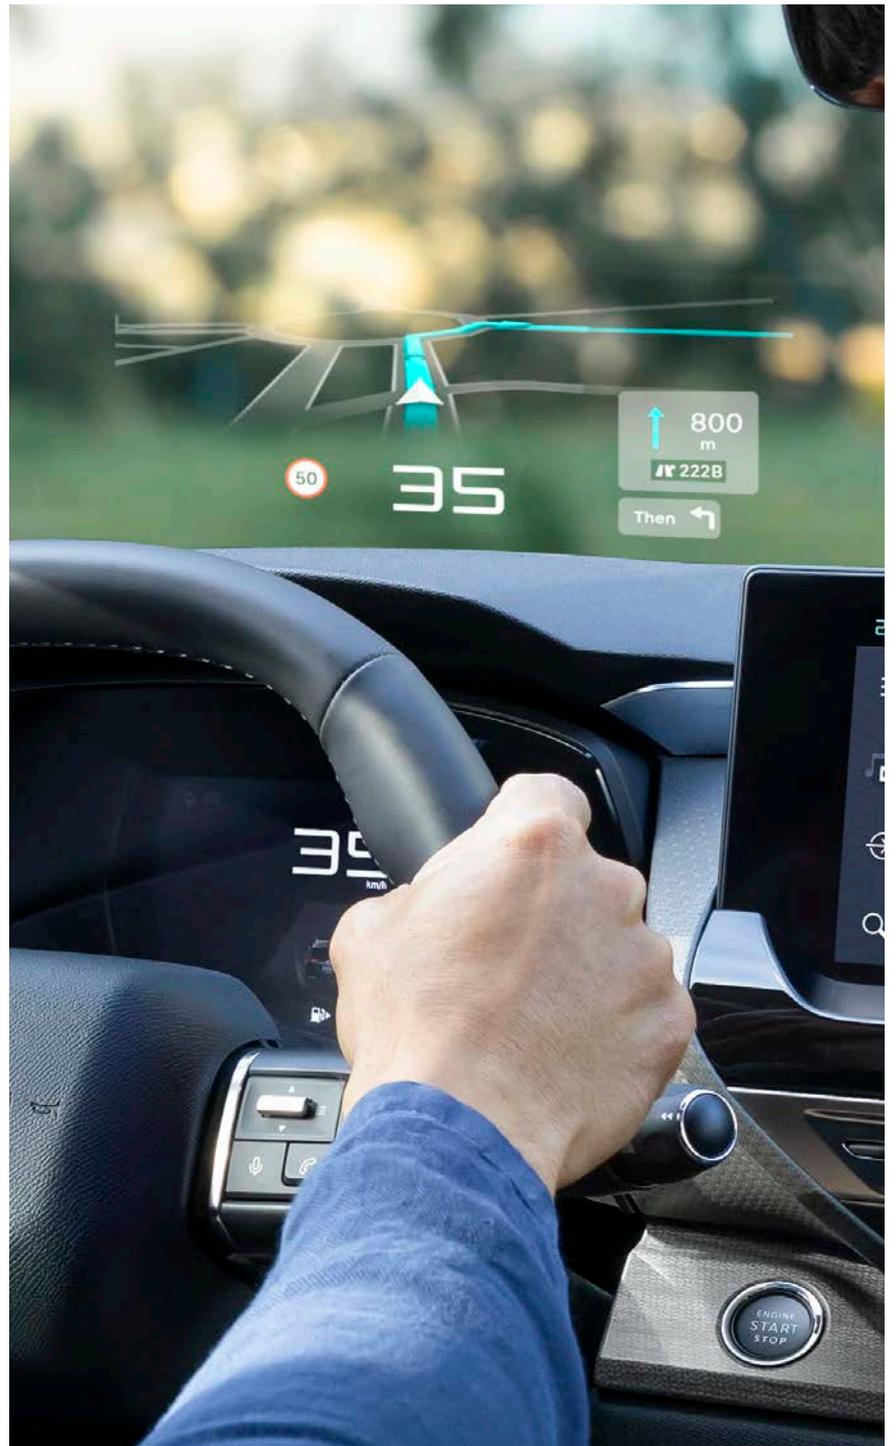

A man with a beard and long hair, wearing a blue sweater, is driving a Citroën C5 X. The car's interior is visible, including the steering wheel with the Citroën logo and 'AIRBAG' text, the dashboard, and the center console. The windshield shows a projected head-up display (HUD) with a speedometer reading '35', a navigation arrow, and other driving information. The background outside the car is a blurred green landscape.

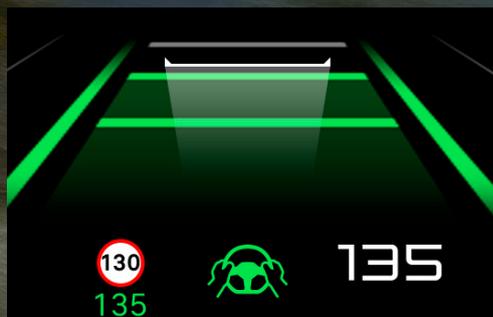

# EXTENDED HEAD UP DISPLAY

C5 X is equipped with a spectacular and useful innovation with this head-up display system new generation. The Extended Head Up Display \* projects all essential driving information onto the car's windshield, in full color and in large dimensions, directly into the driver's field of vision. This feature, configurable and modifiable by the driver using the steering wheel controls, enhances driving safety and serenity since it is no longer necessary to look away from the road to obtain information on speed, operation of driving aids, connected navigation or management media and telephone.

*\* Dependent on version.*

# HIGHWAY DRIVER ASSIST\*

Particularly suitable for expressways and motorways, this system allows the driver to partially delegate driving. All you have to do is select a target speed from 30 km / h, then this system records the position of C5 X in the lane: the driver then no longer needs to manage the speed or the trajectory, these functions being taken over by the car. Note that, for this system to remain active, the driver must keep his hands on the steering wheel. It is obviously possible, at any time, to resume driving.

*\* Dependent on version.*

# SAFETY AND WELL-BEING ON BOARD

## 360° VISION

Activated automatically when reverse gear is engaged or manually, this video assistance for all low-speed maneuvers displays on the touchscreen tablet a view of the top of the C5 X and its surroundings at 360 ° thanks to 4 HD cameras.

## LONG RANGE BLIND SPOT MONITORING SYSTEM

Very useful on expressways or motorways, this monitoring system indicates to the driver the presence of a vehicle in blind spots, up to 70 m behind the C5 X, thanks to an orange diode placed in the corner of the exterior mirrors.

## DRIVER ATTENTION ALERT

This system assesses the driver's state of vigilance by identifying path deviations from the markings on the ground. This function is particularly suitable on expressways, at more than 65 km / h.

## ACTIVE LANE DEPARTURE WARNING SYSTEM

This system works with a camera that recognizes solid and broken lines. If the line approaches, without activating the indicators, the steering then steers gradually to keep the vehicle in its original lane. This technology helps to fight against the drowsiness of the driver.

In addition to the driving assistance technologies described below, C5 X offers Coffee Break Alert, Electric parking brake, Active Safety Brake, Collision Risk Alert, Cruise control, Driving assistance hill start, Static Intersection Lighting, Hitch Stability Control, Reversing Camera with Top Rear Vision \* ...

### REAR CROSS TRAFFIC ALERT \*

This device detects any danger - pedestrian, motorcycle, bicycle or vehicle - nearby when reversing maneuvers.

### PROXIMITY KEYLESS ENTRY AND START\*

The Proximity Hands-Free Entry and Start automatically locks and unlocks the doors of the C5 X when the driver approaches or departs. He just needs to have the key with him.

### HIGH BEAM ASSIST\*

This function supports the switching of high beam and low beam, depending on the traffic, when oncoming or passing cars are detected. This system provides optimal lighting when driving at night.

### EXTENDED TRAFFIC SIGN RECOGNITION AND SPEED RECOMMENDATION \*

This system provides information on the limitation to be observed. When a speed limit sign is detected by the camera, the driver can accept the speed recommendation and make it his or her speed limit. The "Stop", "No way" and "No overtaking" signs are also detected.

\* Dependent on version.

A Citroën C5 X Hybrid is parked on a paved street lined with large, mature trees. The car is partially visible on the right side of the frame. The background shows a building with a striped awning and a street lamp. The overall scene is bright and sunny, with shadows cast on the pavement.

# PLUG-IN HYBRID SIMPLE CHARGING

C5 X Hybrid is characterized by its great ease of use.

Using the touchscreen tablet or the My Citroën application, recharging can be programmed to take advantage, for example, of off-peak rates. The charging hatch, placed at the rear left of the car, includes a light diode to follow the charging process, which can also be viewed remotely on the My Citroën application. Its charging cables are stored in a dedicated location under the boot floor. When the car is driven in 100% electric mode, a blue indicator light comes on under the central rear-view mirror, clearly visible from the outside, to be spotted in traffic, especially in urban centers where access is restricted. Note that to make ever more virtuous journeys, C5 X Hybrid should be recharged regularly.

**BATTERY GUARANTEED 8 YEARS OR 160,000 KM FOR 70% OF ITS CAPACITY.**

# TYPES OF CHARGING

---

In town or at home, the solutions to charge C5 X are many and allow to always find a suitable solution. You choose according to your needs.

## WALL BOX & PUBLIC CHARGING POINTS

---

Thanks to its 7.4kW on-board charger, Citroën C5 X Plug-in Hybrid can be fully charged in under two hours when using a Type 2 charging cable and 32A charge point.

## STANDARD 3-PIN PLUG SOCKET

---

For emergency and occasional use, it is also possible to charge using a 13A, 3-pin plug/ domestic socket to charge C5 X. This method will take under 8 hours to fully charge.

# INTUITIVE INTERFACE

In order to fully master the operation of C5 X Hybrid, the driver has several intuitive interfaces that are easy to read and use. The display mode dedicated to electricity on the digital handset allows you to view the state of charge or autonomy and gives access to the power indicator and energy flows. The specific pages of the touch pad placed in the center of the dashboard display the operating status of the system, the configuration of deferred battery recharging, thermal preconditioning or configuration the e-save function allowing you to keep a predefined 100% electric drive. When C5 X Hybrid is charging, the display will show for example the time remaining to obtain a full recharge.

## DIMENSIONS

Values in millimetres.

\* With mirrors folded / with mirrors extended.

\*\* With longitudinal bars.

<sup>(1)</sup> Figures shown are for comparison purposes and should only be compared to the range values of other cars tested to the same technical standard. The range achieved in real world conditions will depend upon a number of factors: (including but not limited to) the accessories fitted (pre and post registration), variations in weather, driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption (and zero emissions range) and CO<sub>2</sub> figures. These CO<sub>2</sub> figures are used to calculate the Vehicle Registration Tax (VRT) for the first registration of the vehicle. The CO<sub>2</sub> figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.
